Forti SD-WAN

Fortinet Engineer Team

Cartagena

The Most Comprehensive & Advanced Cybersecurity Platform

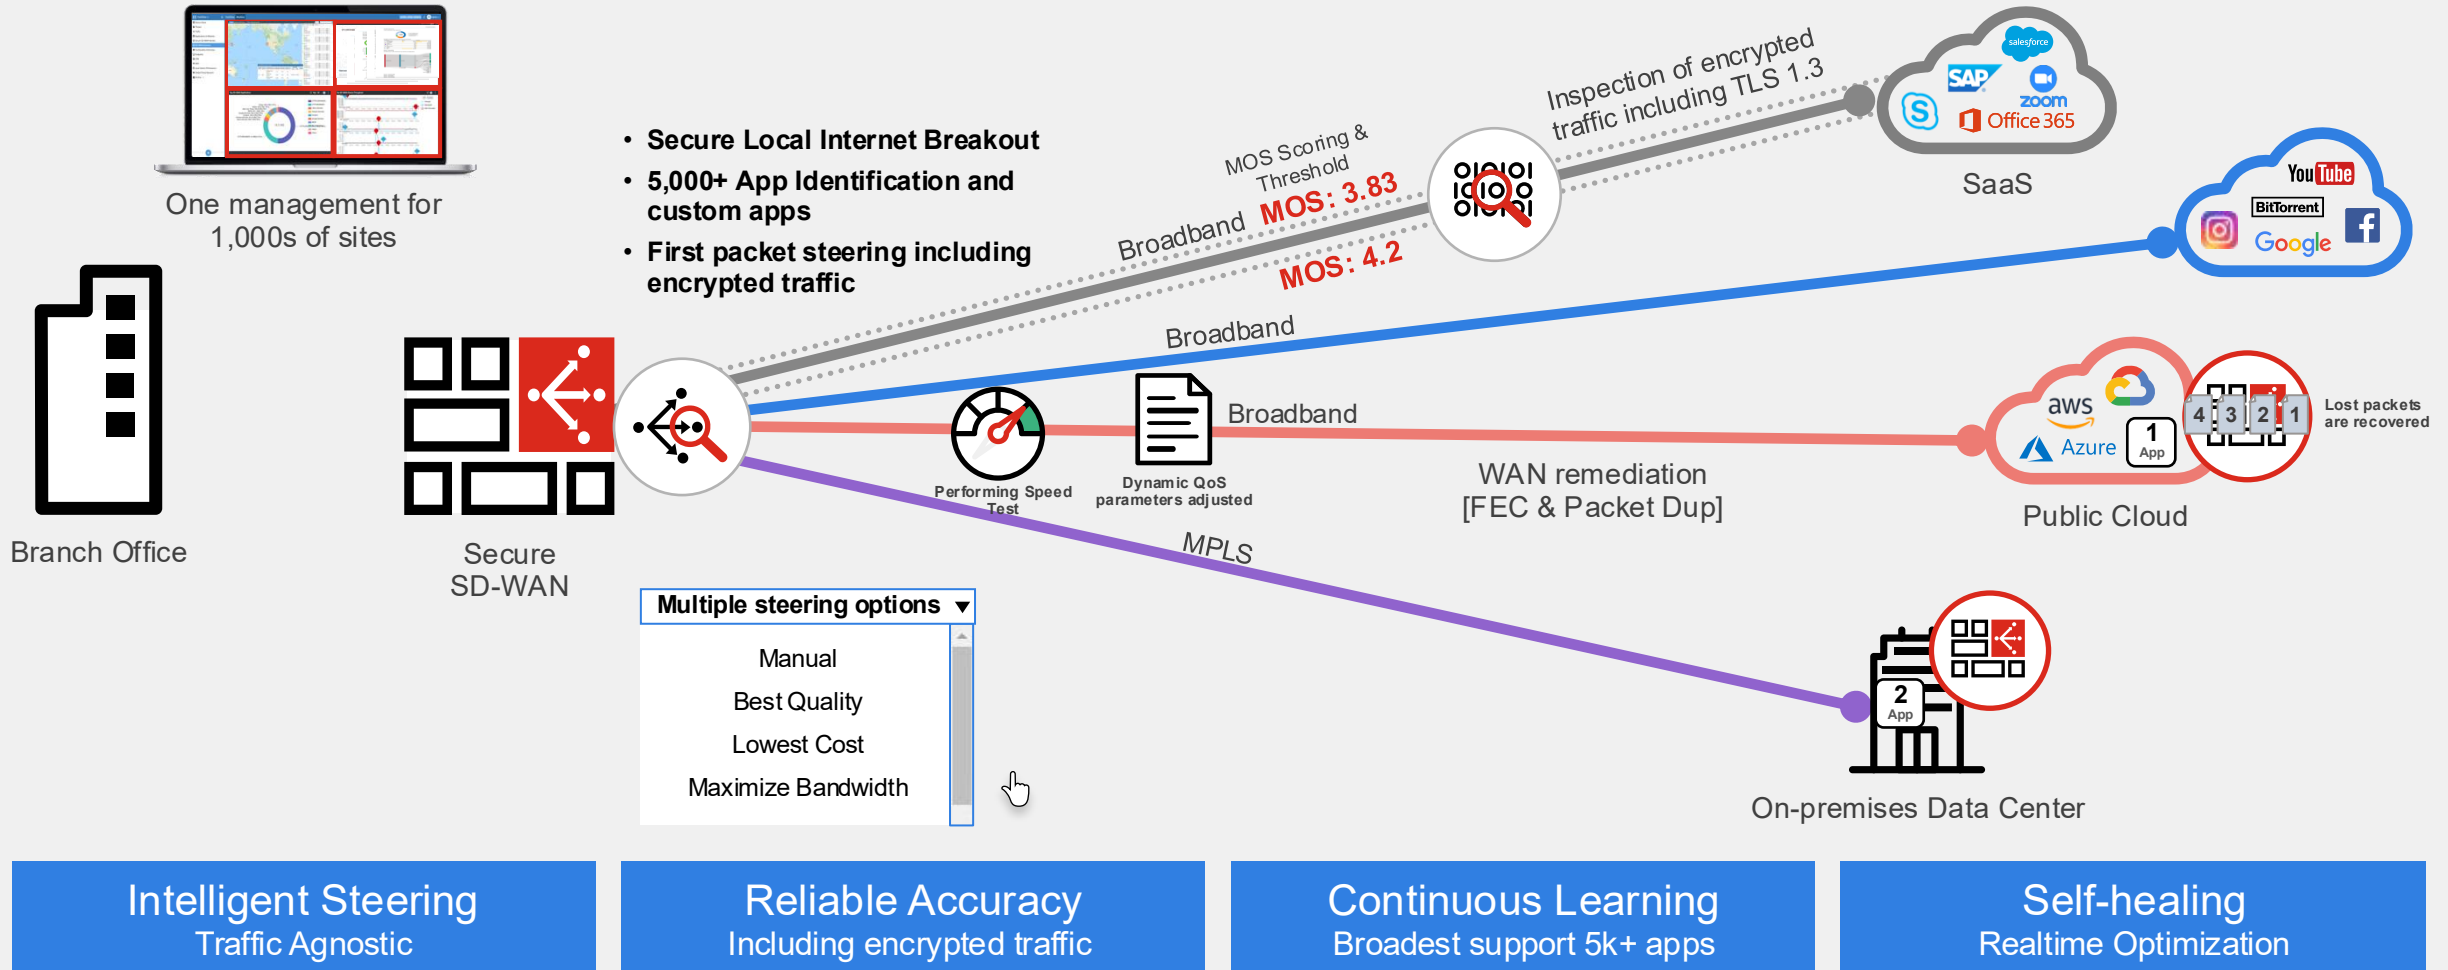

Why Architecture?

Because one size
doesn't fit all.

Enabling Application Resilient Networks, No Matter of Location

Enhance user experience and business productivity

XPERTS26

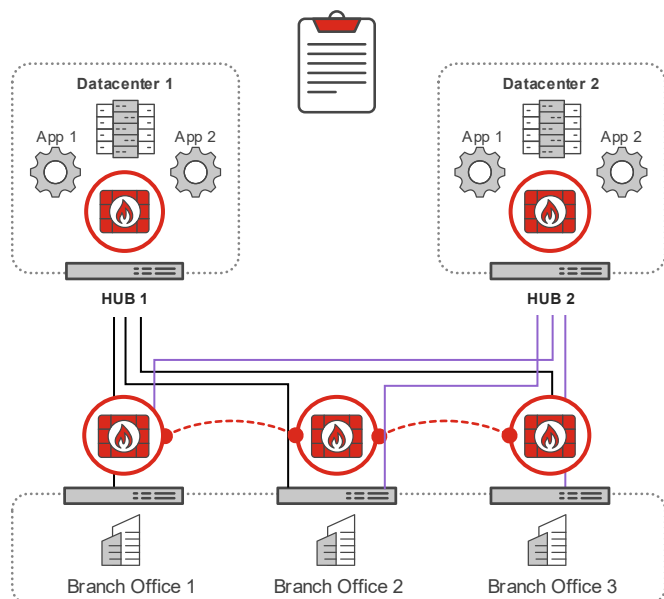

Flexible Provisioning Considerations

for All Types of SD-WAN Deployments

FortiManager

Overlay Orchestration Templates

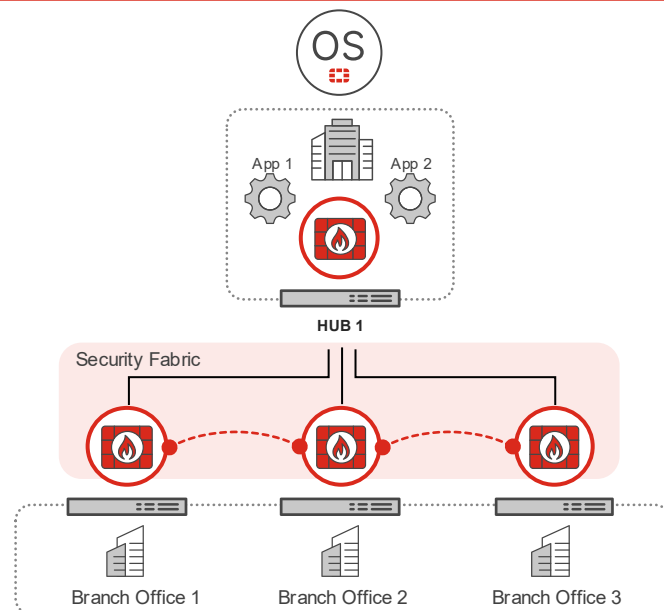

Highly Scalable, In FMG

Intuitive GUI Designed for All Users,
All Sizes, for most Use Cases

FortiOS

Fabric Overlay Orchestrator

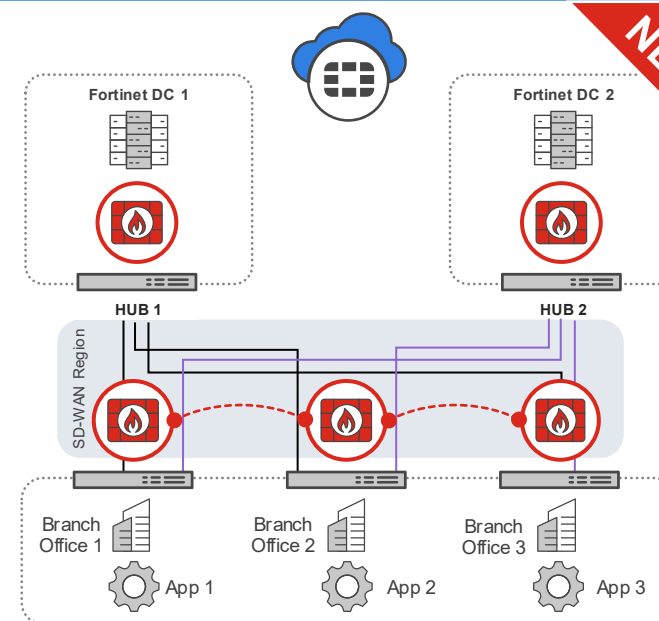

Self-Orchestration, In FOS

GUI Design for small to med,
SMB like deployments

FortiCloud

Overlay as a Service (OaaS)

SaaS Based Orchestration

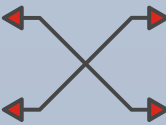

SaaS Service Delivered from FortiCloud
for Smaller Deployments

XPERTS26

SD-WAN Components

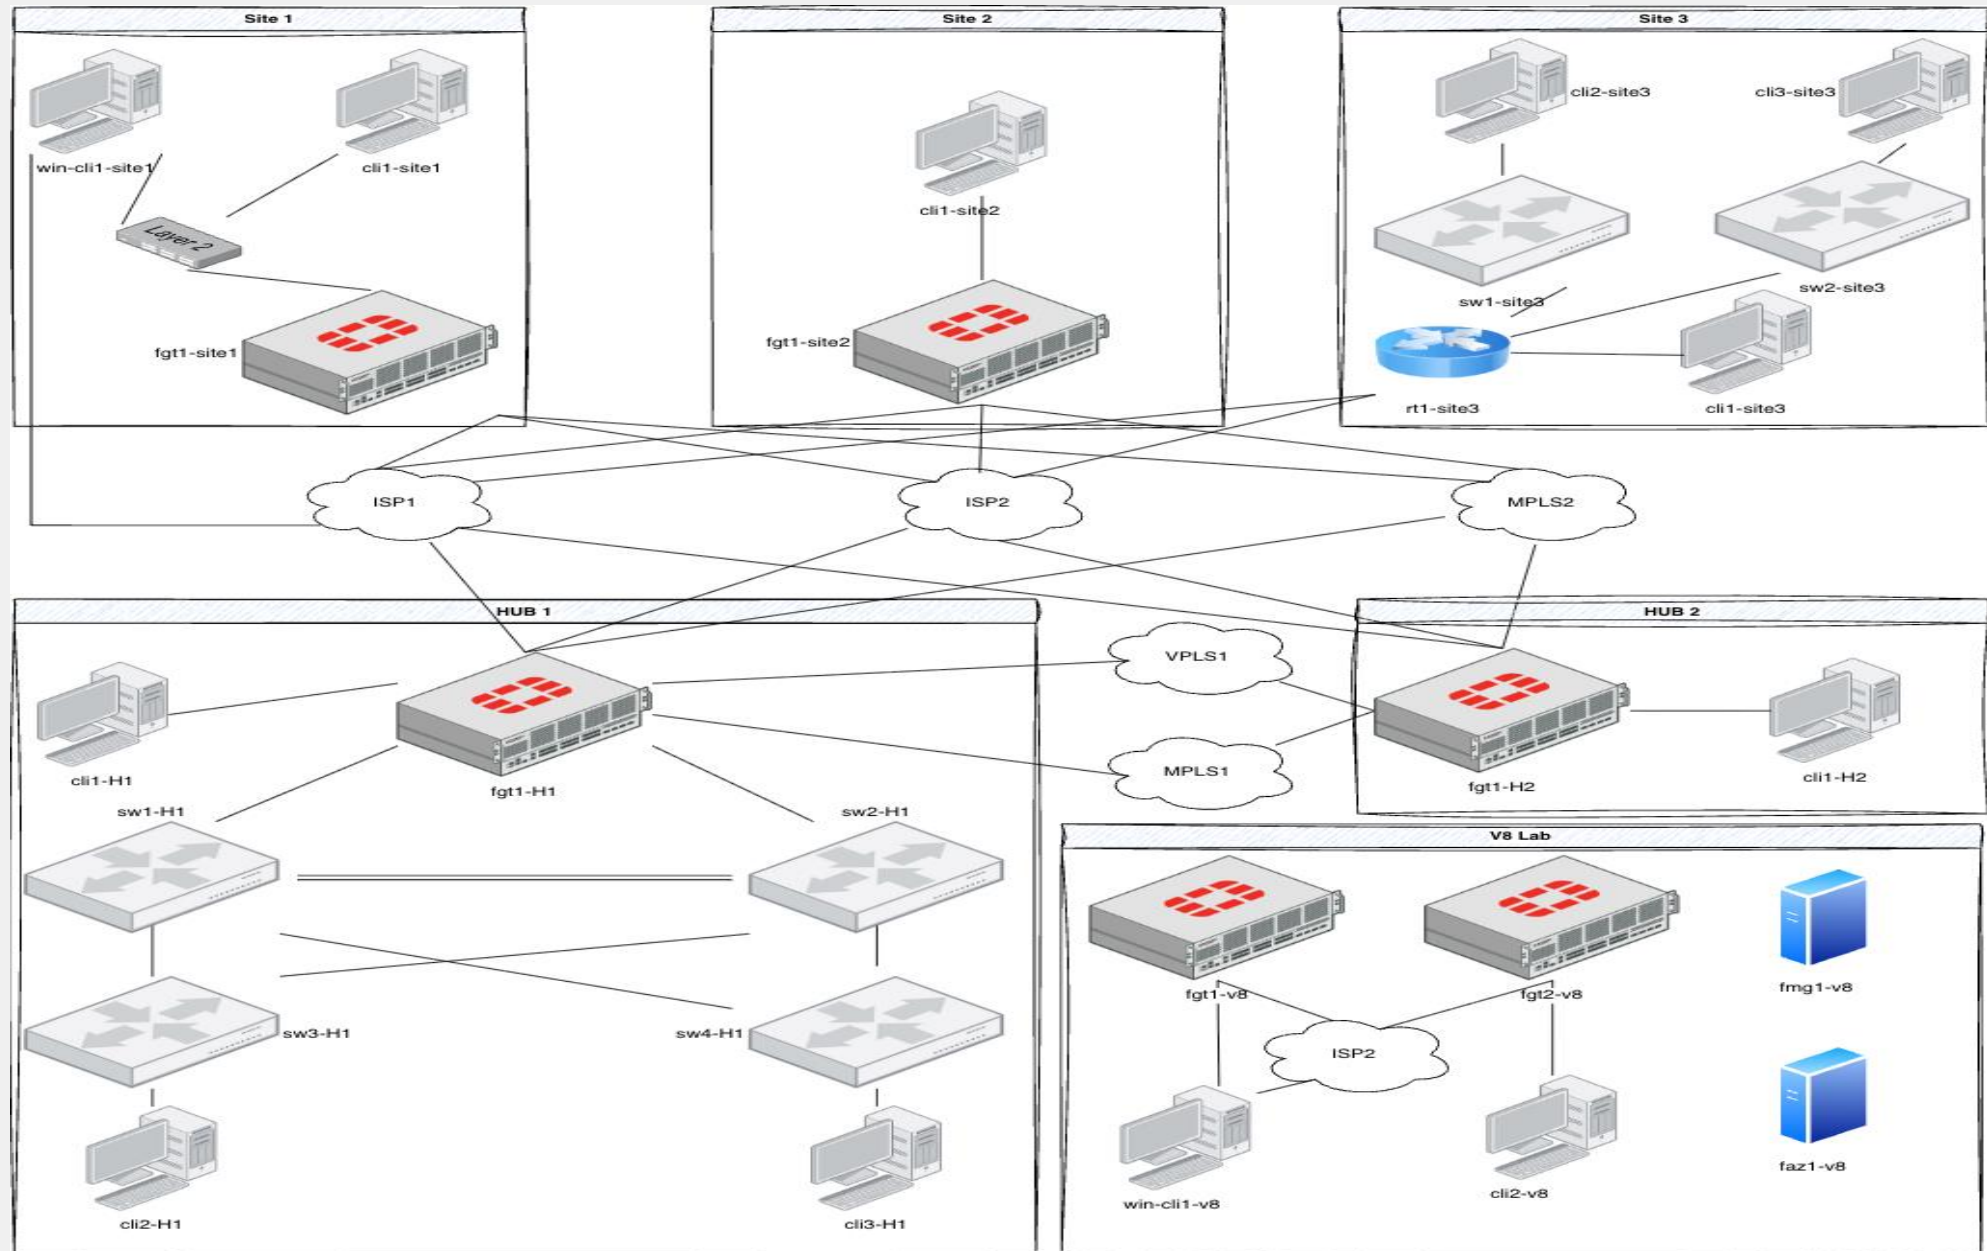

Layer	Functions	Devices
Management and orchestration	• Unified management • Template based solution • Zero touch provisioning • Logging, monitoring, and analysis • Automated orchestration using the REST API	 FortiManager  FortiAnalyzer
Control, data plane, and security	• Consolidation of underlays and overlays into SD-WAN zones • Scalable VPN solutions using ADVPN • Static and dynamic routing definition • NGFW firewalling • SD-WAN health-checks and monitoring • Application-aware steering and intelligence	 FortiGate
Network access	• Wired and wireless network segmentation • Built-in network access control	 FortiAP  FortiSwitch

Introduction to the LABs

Main Topology

Lab Access – passkey [REDACTED]

<https://fndn.fortinet.net/cse>

The image shows a web page for the Fortinet Developer Network (FNDN) with a header banner and a sign-in form. The banner features a blue background with a laptop and various data visualization icons, with the text 'CSE Hands On Labs' and 'Fortinet Developer Network'. Below the banner is a 'Sign In' section with a prompt to enter a Class Passphrase, Email, and Name. There are three input fields for these fields, each with a red asterisk indicating it is required. Below the input fields is a 'Security Check' section with a red circular button labeled 'Sign In'.

FortiSASE

ce and thank you XPerts for joining us for this FortiSASE week.
e dive into the powerful capabilities of Fortinet's Secure Access
session is designed to give you hands-on experience with
ss the challenges of modern networking and security.

Week off logging straight into FortiSASE for Secure Internet

to our SD-WAN technology as SD-WAN is key component on all

Trust Network Labs to provide better security in a Zero Trust
